**Engineered simplicity.  
Now, at scale.**

Conference rooms and the tables around which we gather are changing. They have become a gathering place for collaboration, from informal to formal, small to large groups. The newest member of the Traverse table collection — Traverse Satellite — offers Okamura's incomparable attention to detail and engineering-forward design, at a size appropriate for smaller conference rooms and offices.

A beautiful shape is the best function.

Satellite's table top is less than 1-1/4 inch thick. Inspired by the slenderness of a brushstroke, the surface is complemented by an elegantly designed frame that guarantees both stability and maximum leg room. Clear lines, and a lightness that makes the table appear longer, thinner, linear, narrow.

- Corian® 
- Veneer 
- Laminate 

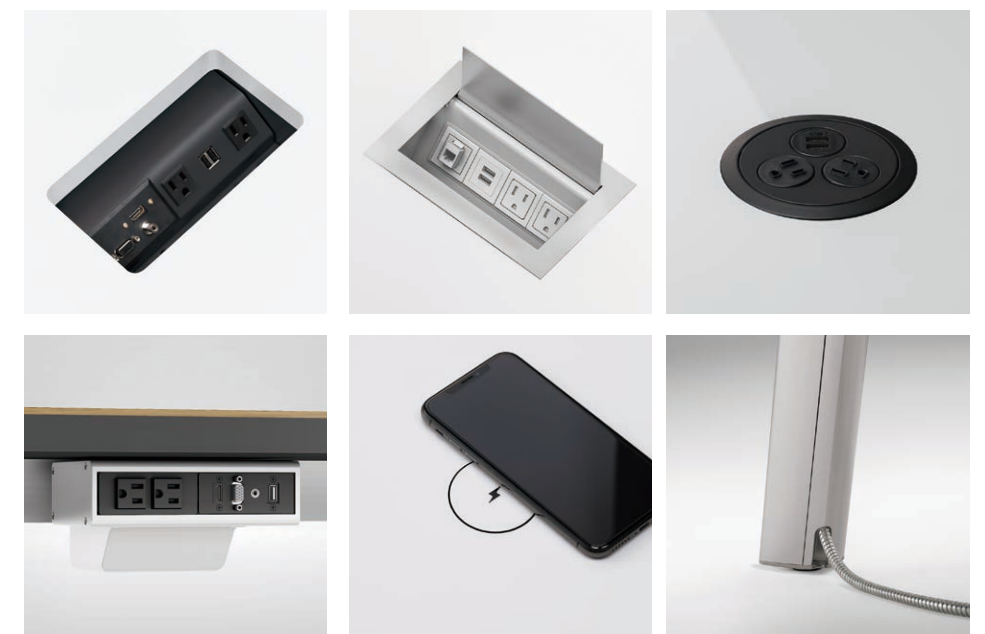

## Technology, hidden but fully powered.

Satellite's rectangular and square tables have flush-mounted metal hatches that are available in various finishes such as veneer, laminate, and Corian®.

The round tables offer a spherical multiple-plug outlet, made of soft touch plastic that can be rotated manually to conceal the plugs on the underside of the top when access is not required. A small, connective Tech Cradle is available, discreetly tucked under the tabletop.

At the bottom of one leg of each table is an inconspicuous access aperture for connecting the electrical and data systems to the floor outlet. The flexible leg attachment design allows minimizing the length of exposed wiring and cable.

## Exquisite finishes

Building upon the elegant profile of the original Traverse Conference Table, Traverse Satellite comes in a variety of rectangular and round top sizes with a range of carefully curated finish options including, glass, Corian, wood veneer and laminate. The original table's diagonal wood sawhorse bases inspire the new tables' sleek diagonal legs that are available in painted or anodized aluminum.

- |                                    |  |
|------------------------------------|--|
| 1. Corian® / GG31 (Designer White) | 4. Natural Wood Veneer / WE55 (Oak)            |
| 2. Glass / H288 (Metal Gray)       | 5. Natural Wood Veneer / WG53 (Ziricote)       |
| 3. Glass / H287 (White)            | 6. High Pressure Laminate / MDM4 (Brilo White) |

## Design Studio

Traverse satellite is designed in collaboration with Rainlight — a product design studio located in London and Los Angeles, with client collaborations across North America, Europe, and Asia. More than a design practice, Rainlight discovers the needs of a changing world through cross-cultural research within their own network of experts in various market sectors. Part Laboratory, part workshop, part studio, Rainlight combines inspired design thinking with business acumen to create artefacts that enhance how people live, work, and play in the real world.

## Finishes

### Tabletop Finishes

#### • High Pressure Laminate (Standard matte finish)

#### • High Pressure Laminate (Anti-finger print super matte infinity finish)

#### • Reconstituted Wood Veneer

#### • Natural Wood Veneer

#### • Glass

#### • Corian®

### Leg Finishes

#### • Paint

#### • Anodized
